

Health Priority Questionnaire

In order to determine which health issues are of the greatest concern to the public, it is necessary to obtain community feedback. In completing this questionnaire, the Monroe County Health Department can work to prioritize and mitigate these concerns in the near future. Please rank the ten most important topics from the following list below. If an option you find important is not listed, fill in the appropriate box with your choice and you may include it in the ranking.

1. _____
2. _____
3. _____
